MIL VOLCANES

MENDOZA *Argentina*

SINGLE VINEYARD "LOS SAUCES"
100% CABERNET FRANC

Vineyard: Los Sauces, Uco Valley, Mendoza, at 980 meters asl. The surface soil is sandy loam, with deep layers of large, rounded rocks. Fluvial deposits and volcanic sediments enrich the terroir, enhancing structure and minerality. Calcium carbonate adds vibrant acidity, elegance, and distinctive mineral notes, shaping a wine of remarkable depth and character.

Harvest: Manually, 1st week of April.

Ageing: 10 month in second use French barriques.

This wine is reminiscent of a powerful and energetic volcano. It has a deep ruby colour with elegant and complex aromas of grilled bell pepper and black fruits, which complement the spicy aromas from aging in oak barriques. On the palate, it is well-balanced, concentrated and with mineral complexity from its terroir. The tannins are velvety, and the finish is prolonged.
